WORK EXPERIENCE

DexPay, Remote — Senior Full Stack Engineer

Decentralised peer-to-peer exchange. JAN 2023 - PRESENT

- Architected and led the development of a fully on-chain P2P marketplace spanning multiple EVM and non-EVM chains (BSC, Solana, Tron, Hedera).
- Built a scalable Next.js front end and multi-wallet onboarding flow supporting 150+ wallets and \$2.5M+ in TVL.
- Created backend services handling pricing, settlements, job queues, caching, and monitoring using Nest.js, mongoDB,

Syarpa, Remote — Full Stack Engineer

Fin-Tech and Crypto Company. JUNE 2021 - DEC 2022

- Joined as part of the early engineering team, contributing to the development of a cross-border money remittance web app with fiat and crypto wallets, which later helped the company secure \$500K in funding.
- Led a team of 3 engineers and modernized fintech dashboards with Next.js and TypeScript, improving performance and design consistency.

Intercity, Remote — Senior Frontend Engineer

Largest Bus Booking platform in Nigeria JAN 2021 - MAR 2021

- Developed and launched core booking components for Nigeria's largest online bus-ticketing platform, onboarding 100+ operators and enabling users to search, compare and book tickets, send parcels and manage charters
- Built an Admin Dashboard for 1,000+ daily users and partnered businesses using React, Redux, Tailwind CSS and Chakra UI.

Physiona — Full-Stack Engineer

Med Tech Platform. JUN 2020 - JAN 2021

- Developed Nigeria's first tele-physiotherapy platform enabling secure video consultations and appointment scheduling.
- Built a full-stack MERN application (MongoDB, Express, React, Node.js) for patient-therapist interaction and payments.

Protech Advance, Lagos, Nigeria — Full Stack Engineer

Software development company APR 2019 - SEP 2019

- Developed pricing and rider-matching algorithms for a dispatch logistics platform serving 10,000+ users and processing over 1,000 rides daily.
- Led the migration of the legacy codebase to DigitalOcean, improving scalability.
